Objective

Entry-level Software Developer focused on backend and fullstack development. Passionate about building real-world applications and continuously improving my skills in scalable systems and clean code. Open to remote opportunities worldwide.

Tech Stack

- **Languages:** Java (Intermediate), C# (Intermediate), Python (Beginner)
- **Web:** HTML/CSS, JavaScript (Beginner), React (Beginner)
- **Back-end:** Django, Spring Boot
- **Databases:** PostgreSQL, Oracle
- **Tools:** Git, GitHub, VS Code, Figma, Docker (basic)

Professional Experience

Instructor *Fortec Assessoria e Treinamento • Mar 2023 – Present*

- Deliver technical education in Operating Systems and Programming Logic (C#) for technical students.
- Develop teaching materials: slides, code examples, exercises, and lesson plans.
- Lead practical sessions and code-along projects, increasing engagement and retention.
- Created assessments and provided personalized feedback, helping students apply theory to real projects.

Development Intern *Almeida Imagens e Fotografia • May 2014 – Dec 2014*

- Developed and maintained the company website using HTML, CSS, and JavaScript.
- Designed database structure and integrated CRUD functionality.
- Performed testing and debugging to improve site reliability.
- Maintained clear documentation of development processes.

Education

Technologist in Systems Analysis and Development — FATEC (2025) **Postgraduate in Business Law** — FGV (2023) **Bachelor's in Law** — UFJF (2021)

Projects (GitHub)

- **HabitTracker** – In-progress React app for tracking personal habits with dynamic forms and contextual state management.
- **Álcool ou Gasolina** – Simple React Native app to help users calculate fuel cost-benefit.
-

Languages

- **English:** Advanced (TOEIC 965/990)
- **French:** Beginner

Certifications & Courses

- Cisco Networking Academy: Introduction to IoT (2023)
- Data Science Academy: Power BI for BI & Data Science (2023)
- DIO: Python (Functions, OOP, Data Structures, Git), 2024
- SAS: Visual Analytics 1 for Viya, Enterprise Guide 1, SAS Programming 1
- FATEC: Front-End Microcertification & JavaScript API Integration

---

Additional Highlights

- Taught and mentored 100+ students in C# and operating systems.
- Strong communication skills and a passion for tech education.
- Always learning, building, and collaborating.
